Meeting?

Cooke, Scott <scooke@blm.gov>

Fri, Nov 1, 2013 at 8:36 AM

To: Larry Humphrey <lhumphrey@cableone.net>

Larry, I have a couple of updates for you.

The meeting Tim and I have with the State Director and NM BLM on the Southline Powerline Project got scheduled for Thursday, November 21, so November 19th at 1000 hrs still works for us to have a meeting.

Also, because you have expressed particular interest in the Sands Draw project, I am attaching the DNA, FONSI, and Decision Record for the "Lower Sands Draw Fall 2013 Planting" that I signed yesterday. My apologies for it being such a huge file, our normal scanner is out of commission for the time being. If you have any questions feel free to give me a call. Thanks,

Scott

I got it on the calendar for the 19th at 1000 hrs. There is a possibility that Tim Shannon and I will have to go up to Phoenix to meeting with the State Director on the Southline Powerline EIS on that day. I will go ahead and schedule November 22nd at 1000 hrs as a back up if that ends up happening. That way we can still do it that week regardless.

As far as the DNA question please see <http://www.blm.gov/az/st/en/info/nepa.html> . **DOCUMENTATION OF NEPA ADEQUACY (DNA)** - A Documentation of NEPA Adequacy (DNA) identifies previously prepared NEPA documents which adequately describe the environmental consequences of a newly proposed action. In most cases, a DNA is prepared without additional public involvement.

Also see [http://www.blm.gov/pgdata/etc/medialib/blm/ak/aktest/planning/planning_general.Par.2116.File.dat/Handbook.NEPA.H-1790-1.2k8.01.30\[1\].pdf](http://www.blm.gov/pgdata/etc/medialib/blm/ak/aktest/planning/planning_general.Par.2116.File.dat/Handbook.NEPA.H-1790-1.2k8.01.30[1].pdf) pages 22 to 24 for specifics related to DNA's. We are in the process of having an internal review and discussion to determine if the proposed action is a feature of or essentially similar to an alternative analyzed in the existing NEPA document. Once that review is complete I will make the decision if I will be signing a DNA or if additional NEPA and/or scoping and/or public notification is needed.

Thanks, see you on the 19th.

Scott

I was hoping for sooner, but that will be fine. I understand there is a DNA out for review for the fall plantings in the same spot. As an interested party I have not received any notice as required by regulation? Thanks, I'll see you at 10:00 am on November 19th.

Hi Larry,

Tim Shannon, Joe David, and I were all going to meet with you. Based on our calendars November 19th is the first day that we can all be at the same place at the same time. Will 1000 hrs on the morning of 11/19 work for you? If so I will get it down and block off the time, just let me know. Thanks,

Scott
